Projects

Book Your Event - Solo Developer

<http://book-your-event.herokuapp.com/>
<https://github.com/olesia-ag/bookyourevent>

A property management web application.
Designed and developed functionality to allow users to check availability of the space and submit a form to book the event.
Built schemas in database, associations between events and venues, created functional UI with calendar and form submission component.
Sequelize, Express.js, React.js, React-Redux.

Burger Builder - Solo Developer

<https://react-my-burger-28985.web.app/>
<https://github.com/olesia-ag/burgerbuilder>

React.js web application that allows users build a burger, create account/ login into existing one, order and view their orders
React.js, React-Redux, Firebase

Software Developer

MindCraft
<https://github.com/Mind-Your-Business/>

Gamified app that helps to build better mental habits by completing daily tasks like journaling and meditations.
Created the database schema, established the connection between back-end and front-end via API routing, axios and fetch requests.
Built an animated meditation component with countdown timer functionality.
Sequelize, Express.js, React Native, React-Redux.
